AUDIT PROCEDURES

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records.

GENERAL COMMENTS

SCHOOL TAX ON SET-OFF PROPERTY:

The outline of procedure relative to the school tax on set-off property, which was included in our previous audit report dated July 21, 1948 is repeated herewith, as the recommended procedure apparently has not been followed.

Certain properties in the Town of Rollinsford are set off into the City of Dover for school purposes. In 1949, the assessed valuation of the set-off property amounted to \$52,100.00. The valuation of the set-off property is deducted from the total valuation of the Town when the school district tax rate is calculated, inasmuch as the school tax on this particular property is assessed and collected by the City of Dover. It has been the practise, however, for the Town of Rollinsford to assess both the town and school taxes on the set-off property and subsequently to abate the school taxes thereon.

Only the town tax should be assessed on the set-off property. This eliminates the necessity of making abatements of school taxes each year on this property. In 1949, the abatements of such school taxes amounted to \$1,302.50.

TAX ACCOUNTS:

It is again recommended that the Tax Collector adopt the use of the following prescribed accounting forms:

(1) LOOSE LEAF COLUMNAR CASH BOOK:

This form provides columns for the segregation of property and poll taxes, interest and redemption from tax sales by years of levy. It likewise provides the basis upon which an accurate report may be made by the Collector to the Town Treasurer with each remittance.

(2) RECORD OF TAX SALES BOOK:

This book provides for the recording of complete information relative to each tax sale, indicating the amount for which each piece of property is sold and the amount for which it is subsequently redeemed. The unredeemed items at the close of the year should be carried as assets in the Balance Sheet.

TAX SALE ACCOUNTING PROCEDURE:

Immediately following the tax sale a town voucher and check should be issued to the Collector for the total amount of taxes bought by the Town. This includes the amount of taxes, interest to date of sale, fees and costs. The Collector, upon receipt of the check, credits the proper accounts in his warrant book, at the same time entering the amount of interest, fees and costs applicable thereto in the "Interest" column. A note should also be made in the right hand marginal column indicating that the tax was "bought by Town."

The Collector then endorses the check and remits it to the Treasurer to be credited as taxes and interest collected with the year of levy indicated.

A second check is issued to the Collector for the amount of fees which are due him incident to the advertising and selling of property bought by the Town, together with any expenses which he has paid or advances which he has made in connection therewith.

The first check should be charged to the account "Taxes bought by Town" and the second check to "Town Officers' Expenses."

All items included in the tax sale are then posted to the "Tax Sale Record Book" as previously explained.

CONCLUSION:

The accounts of all town officers which we examined were found in good condition and the accounting and financial procedure, with exceptions as herein noted, conformed to the standards prescribed by this Division.

The provisions of Section 31, Chapter 211, of the Laws of 1939, require that this report or a summary of its essential features shall be published in the next annual Town report. This letter of transmittal should be included in its entirety but the inclusion of Exhibits is optional.

We extend our thanks to the officials of the Town of Rollinsford for their assistance during the course of the audit.

Yours very truly,

HAROLD G. FOWLER, *Director*
Division of Municipal Accounting
State Tax Commission

Herbert E. Hunt, *Auditor*
C. David Sullivan, *Accountant*

Note: The Exhibits may be seen at the Selectmen's office.

CERTIFICATE OF AUDIT

This is to certify that we have audited the accounts and records of the Town of Rollinsford for the fiscal years ended December 31, 1948 and December 31, 1949, and the period from January 1st to June 30th, 1950; and, subject to exceptions as noted in the report, found them to be in good order. In our opinion the Exhibits included herewith reflect the true financial condition of the Town, together with the results of operations for the fiscal years ended December 31, 1948 and December 31, 1949.

REPORT of SUPERINTENDENT OF SCHOOLS

TO THE SCHOOL BOARD AND CITIZENS OF ROLLINSFORD:

As I became Superintendent of the Rollinsford School District on November 1, 1950 my report will of necessity be very brief. Mr. Lewis Hatfield will relate in detail events which have taken place during the past year in the Rollinsford Grade School.

Rollinsford is fortunate in retaining its present teaching staff who have worked well together for nearly two school years. Mrs. John Baird of Durham began the instruction of music in January and will continue until June. The School Nurse Mrs. Vina Shaw resigned in November and has been replaced by Miss Arline Stockdale.

Negotiations are underway to qualify the Rollinsford School District for Federal Aid to Education under Public Laws Bill 874. Due to the activity at the Portsmouth Navy Yard, Rollinsford will receive in the vicinity of \$2,000.00 for this school year. It may be necessary to make occupational surveys from time to time and it is hoped that parents will cooperate in this matter.

It is regrettable that the school budget will be increasing greatly for the school year 1951-52. This is due to increased tuition charges, teacher salaries keeping pace with industry and an overall increase of 20% on all other supply items. Education is our greatest weapon against Communism and to cut these services invites disaster.

As a part of this report charts will show census children and also those attending High School with tuition rates.

It is my desire to be of service to the citizens of Rollinsford and to cooperate with you in school matters. My office is located in the Chandler School in Somersworth and its facilities are open to you at all times.

In conclusion I wish to thank the School Board, Teachers and Citizens of Rollinsford for their fine cooperation during the past three months.

Respectfully submitted,

ARTHUR W. DANIELSON,

Superintendent of Schools.

REPORT OF SCHOOL PRINCIPAL

Rollinsford Grade School
January 26, 1951

TO: THE SUPERINTENDENT OF SCHOOLS
THE ROLLINSFORD SCHOOL BOARD
THE CITIZENS OF THE TOWN OF ROLLINSFORD, N. H.

Once again the time has come for the submission of a report of the activities of the Rollinsford Grade Schol. It is with pleasure that the following report is herewith submitted for the period beginning January 1, 1950 and extending through the present school year.

ENROLLMENT

The Rollinsford Grade School resumed its session after the summer vacation on Wednesday, September 6, 1950, with an enrollment of 157 which was distributed as shown below in the accompanying data sheet.

ENROLLMENT DATA FOR THE ROLLINSFORD GRADE SCHOOL, 1950

Due to the inevitable transfers both to and from the school, the population, at the present date stands at 153.

INSTRUCTION

The instruction of pupils continues on a plane similar to that of the past year. During the number of visits to the individual classrooms made by the principal, it has been noted that the quality of instruction generally is high, and that the faculty as a whole is conforming to the standards of instruction advanced by the State Department of Education. It is to be found also that the curriculum as set up by the State Board of Education, with such modifications or additions as have been found necessary by local conditions is being adhered to.

The objectives of this school as previously expressed in the 1949 report have not been altered. However, a greater emphasis has been placed on the idea of obtaining scholastic attainment by:

- (1) Setting high standards of scholastics ideals
- (2) Various contests employing group rivalry
- (3) Noting failures, diagnosing them, and applying remedial treatment.
- (4) Offering recognition for greatest progress.
- (5) Stimulating the ideal of surpassing one's own best record.
- (6) Exhibitions of the best efforts of individual pupils.

Two major objectives of instruction as carried on in the school may be summed up as follows:

- (a) To get to know thoroughly each individual pupil as a total functioning person—his aptitudes, capabilities, interests, ambitions, school needs, psychological dynamics, and such other information and data about each that can be acquired and used for his advantage.

- (b) To help each pupil understand himself thoroughly so that his plans and choices will include his new definitions of himself as a total person with specific aptitudes, interests, limitations, and goals.

AUDIO-VISUAL INSTRUCTION

In order to supplement the personal instruction of the teachers and to aid more fully in realizing the objectives as expressed previously, much use has been made of the motion picture libraries of the University of New Hampshire, Boston University, A. H. Rice of Manchester, and others located variously throughout New England. It has been found that the use of the projector, the slide film projector, and the radio-record player have been a help in supplementing teacher-instruction and a great stimulus in providing basis for discussions.

It is regretted that the school lacks an opaque projector since this type of machine opens the field of visual aids to a wide degree. This device if added to our present equipment would aid considerably in the presentation of instructional material.

FINE ARTS

It should be reported here that instruction in the field of Fine Arts has been increased somewhat. Teacher-instruction activity has been increased somewhat in the field of drawing. It is felt that this field supplies an outlet for any creative ability a child has and should not be neglected. Capable instruction has also been given in the field of music by the Music Supervisor, Mrs. Eleanor Baird. It has been possible with her help to level some of the inequalities of instruction in the field of music. Instruction has been given in the areas of music appreciation, rhythemics, music reading, and the singing in Unison and Part music.

While no tremendous amount of time is devoted to either

of these fields, it is felt that instruction in both fields is both necessary and desirable.

PRACTICAL ARTS

Lest it be feared that too great emphasis may be placed on the so-called "Fine Arts", it should be pointed out that capable instruction in the fields of manual arts for boys and Home Economics for girls is being given regularly.

In the manual training classes, instruction is being given in the knowledge and use of hand tools, as well as machine tools. The boys progress at a rate determined by their own individual competencies with the number of projects finished by the end of the year dependent on their own initiative and abilities.

This program is under the supervision of Mr. Ralph Steeves, teacher of the seventh grade, who holds two classes a week for the boys of the seventh and eighth grades.

The home economics program is similarly based upon individual abilities and instruction is so provided. The program is competently handled by Mrs. Martha Evans of Durham who conducts her classes on Monday afternoons. Mrs. Evan's program is divided into two areas:

(1) Cooking instruction, and (2) Sewing instruction.

Here, again, instruction is geared to the abilities of the individuals of the group and results in a well rounded program.

PHYSICAL EDUCATION

Let it not be said that we are not striving for a full program of instruction in this field as well.

Opportunities are given in this field for participation in this field of learning through activity in organized games, organized sports, and teamwork. In the upper grades, instruction is given in calisthenics and group games.

Both intra-mural and interscholastic sports are being played.

EXTRA-CURRICULAR ACTIVITIES

Under this title might properly be placed some of the activities carried on that are not specified in the Curriculum of the State Board of Education.

The first is Education Week. This year American Education Week was observed by having an evening session of all classes. All of the parents of pupils in school as well as all citizens of the Town were invited to attend this session in order to observe at first hand the activities of the school, become conversant with the problems besetting both pupils and teachers, and to attempt an adjustment of the following difficulties:

- (a) Pupil-Teacher
- (b) Parent-Teacher
- (c) Pupil-Parent

From the response to this invitation and the resulting solution of some of the conflicts, it would seem that this was a worthwhile activity and should be continued.

Another phase of extra-curricular activity lies in the field of assembly programs. Throughout the year many and varied assembly programs have been planned and carried out. They included both participation of pupils and speakers from the outside.

A third phase of activities includes the social aspects of community living. In this area a number of dances and parties have been planned and carried to completion by the members of the various classes. This activity has been stressed more in the seventh and eighth grades where many pleasant Friday evening dances have been enjoyed.

GUIDANCE

This type of program is being carried on with increasing vigor so that it is being felt in all grades and at all levels. Opportunities are given to all children to make use of such guidance services as are provided in the school. It is felt

that this program will be materially bettered throughout the remainder of the year as a result of the inservice training program now getting underway in the teacher's organization of the union.

Regular use of the basic principles are in daily use in all of the classes of the school.

HOT LUNCH PROGRAM

This department of the Rollinsford Grade School is under the capable supervision of Mrs. Edward Bureau, who serves as both dietician and cook. She is ably assisted in this work by Mr. Edward Bureau, the custodian of the school.

Approximately 70 meals per day are served, all of them being of the type A, or Hot Lunch and Milk variety. In accordance with the requirements of this program a number of free meals have been distributed.

Several pieces of new equipment have been added during the past year in order to facilitate the preparation of the lunches. Among the items of new equipment are:

- (1) An institutional size gas range
- (2) A potato peeler
- (3) Assorted mixing bowls and utensils

During the past year most canned staple items were obtained through wholesale purchasing, thereby affecting some measures of savings. The balance of goods was obtained from local retailers.

FACULTY

This year has found no changes in the make-up of the faculty. Information regarding the individual members of the faculty may be obtained from the following Faculty Data Sheet:

LIBRARY

The library of the Rollinsford Grade School was particularly fortunate last year to have been able to obtain a large number of books for general reading purposes and for research use as well.

The school is particularly grateful to the following:

- (1) The Dover Public Library for its gift of 354 books.
- (2) Mrs. Fred Green for her aid in obtaining the above gift of books, and also for her gift of 120 copies of the National Geographic Magazine.
- (3) Mrs. Alice Knowles for her recent gift of 25 books.

It is requested that any citizens of the Town of Rollinsford who have books for which they have no further use, please donate them to the school library for use in the School.

It is My Home Town...
and I am Part of It

"My town is the place where my home is founded; where my business is situated and where my vote is cast; where my children are educated; where my neighbors dwell, and where my life is chiefly lived. It is the home spot for me. My town has the right of my civic loyalty. It supports me and I should support it. My town wants my citizenship, not my partisanship, my friendliness, not my dissension, my sympathy, not my criticism; my intelligence, not my indifference. My town supplies me with protection, trade, friends, education, schools, churches, and the right to free, moral, citizenship. It has some things that are better than others; the best things I should seek to make better, the worst things I should help to suppress. Take it all-in-all, it is my town, and it is entitled to the best there is in me."
